

## Seraphine birdcage

### Information

Designer: Georgios Maridakis  
 Design year: 2007  
 Weight: 4,0 kg.  
 Material: Steel and aluminium

The Seraphine cage is forged by artisans using a sparkling metal cutting technique. Inspired by the Versailles gardens of the Sun King, it is meant to be a small piece of paradise on earth. Seraphine resembles an archway depicting a romantic dream world. Though being a bird cage, Spell hopes people will not confine their birds in Seraphine as birds are a symbol of freedom. This rare object should be enough to give colour to any interior, adding plenty of 'eye candy' without a colourful bird caged within.
